SVN SUMMIT COMMERCIAL REAL ESTATE ADVISORS EXPANDS WITH NEW OFFICE IN CLEVELAND

Akron, OH (Sept. 30, 2021) — Today, SVN Summit Commercial Real Estate Advisors officially expands its footprint in Northeast Ohio with the grand opening of its new Cleveland-based office.

Jerry Fiume, SIOR, CCIM, the managing director at SVN Summit Commercial Real Estate Advisors, and fellow SVN Broker Victor (Vic) S. Voinovich are partnering to deepen their services in the region.

“Vic and I are both driven by two things: strong relationships and expertise for our clients,” states Fiume. “This not only differentiates us in the commercial real estate marketplace, but it also makes for a natural collaboration. Expertise and relationship informed our past and will drive our future growth.”

According to Fiume, the SVN advisors will now be able to more deeply support the full Northeast Ohio region.

“We’re in the community and of the community,” shares Voinovich. “Together, we have the horsepower of a talented team of experts and a tank full of gas thanks to lifelong Cleveland, Akron, and Northeast Ohio relationships.”

The international SVN corporate offices also praised this regional expansion and collaboration.

“As the SVN brand grows across the globe, we are partnering with market leaders who share our vision of a collaborative, open approach to commercial real estate,” says SVN President and CEO Kevin Maggiacomo. “SVN Summit Commercial Real Estate’s new office in Cleveland, OH, is a strong addition to SVN and we look forward to rapidly growing the SVN presence and culture in the Cleveland market.”
